

Thanks, um.. You seem like an upstanding citizen, I guess.

I think I have enough to report back to HQ now.

That's terrific!

We'll leave you to your work, then!

Let's go, Crush!

How was the old folk's home?

It was fine.. The grannies gave me some candies, want some?

Oh? What kind??

Licorice!

Ewwwww.. No thanks!

How did someone like him

end up with someone like Crush?

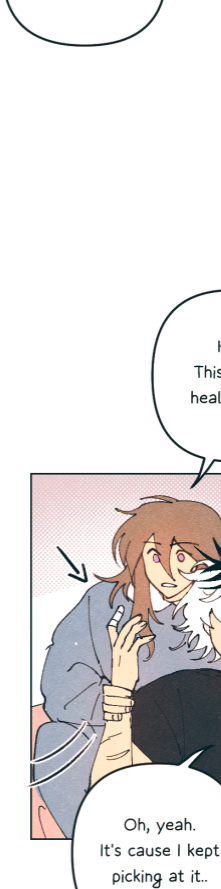

Wow, What a good day today!

Mashiro's already picking up the work I was taking

I can't believe how efficient he is!

Who?

The new guy!

Oh, right.

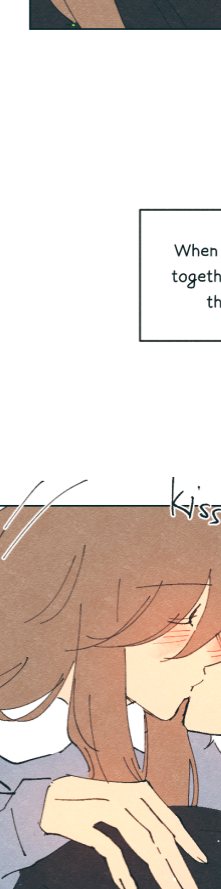

Our backlog is already half-done, and it's only his first day!

If we keep this up, I can probably take up more projects!

More.. projects?

Yessir~

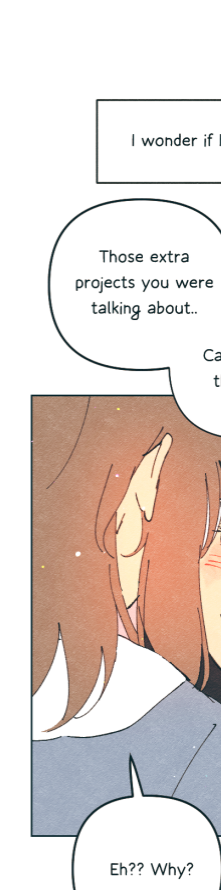

Oh, you're done showering already?

Come come!

You wanna dry my hair again?

You know me so well~

Haha.

Your hair is so fluffy after blowdrying

You're like a giant puppy!

Only you think so..

Hm? This hasn't healed yet?

Oh, yeah. It's cause I kept picking at it.

Honey..

I wish you were more careful with your body..

I'll try harder for you.

Good~

Done!

Thanks, love.

Even the roughest stone would yield to the gentle caress of water

When we're together like this

I feel like I'm being molded

Just like the weathering

Cherie?

Hm?

I wonder if I, too

Those extra projects you were talking about..

Can you put them off?

Eh?? Why?

will yield.

I want to go on a trip

Just the two of us.
