

STAR WARS

THE YOUNG QUEEN

- Sith Lord Iris steals queen from capital with captured stealth cruiser
- Melion, the Queen's surviving daughter, goes on a mission to rescue her
- Iris brings Queen to Jabba's palace ship. Jabba finishes eating the Senator the Queen had sent to the republic as she is brought forth. "You're lucky I just ate. I might not have been able to resist the urge to swallow you right here and now."
- Jabba intends to win war with Rebel tactics of jumping from base to base with the Republic chasing. Stealing key senators and leaders. His ultimate goal is to establish the Outer Rim as a United Federation greater than the Central Republic. The systems on the edge of the Galaxy would create a circle of allegiances that would dominate the center.
- Jabba and Iris reveal their plan to the Queen. She asks what the Sith has to do with all of this. Jabba explains a breakthrough his beastmasters have made. His bio-engineers can create abominations that absorb force powers, and bestow them on their meals. Iris then reveals Tamara survived the abomination's digestion. She is now a mind wiped and force sensitive Sith Slave. Iris Voo allied with Jabba in order to establish her own Sith Empire. Jabba's beast masters and bio-engineers would be able to grow pure Sith. Alegend only to Iris.

•Melion and Jedi Stella retrace Tamara's first steps on Tatooine in order to find Jabba's palace. Sleeping inside Tamara's ship is an ex-slave girl named Julia Tindara. She keeps a pet named Prub, who is the severed head of the sand squid that Swallowed Tamara. A secret he keeps to himself. Julia agrees to lead them to Jabba's palace.

•The girls wonder how a good looking girl like Julia managed to be set free from Jabba's enslavement without a scratch. Julia keeps the details to herself when she discovers who Melion is.

•The three girls cross the dune sea, but are waylaid by a hungry Sarlaac pit. It eats all three girls, but Jedi Stella manages to cut off its head from within and rescue the other two girls with the force.

•The girls set up camp at a reservoir for the night. Melion tells Julia that Stella has a fun trick she can do. They all get frisky with Stella's Jedi mind trick and are incapacitated during. Prub manages to swallow Melion whole by stretching his head all the way around her. Julia and Stella remove him, and Prub confesses he has tasted Weldow flesh before. The three girls decide to visit prub's old hole which was also Tamara's speeder crash site, to find more clues.

•The three girls arrive at the crash site. Prub tells the girls what had happened after his head was cut off by Stella's old master. Stella is angered and Julia shudders at the remembrance of Turrak. She tells the girls the monster ate her mother, and was a favorite of Jabbas. They meet Julia's friend and scavenger Teela Hinbella at the site as well. She tells the girls that Jabba's palace has been abandoned. The four then travel to the palace.

•The girls try to find clues as to where Jabba's palace ship is currently hiding. A left-behind monster of Jabba's is released from a prison cell and swallows Teela. The three girls run through his palace to avoid its hunger. It chases Melion but Julia tricks it by hanging on a chain like she's bait. The monster runs down a halfway path that leads outside in order to get her. As it leaps from the door to eat Julia from the hanging chain, Stella hoists her up and the monster misses and falls to its death.

•They spend the next few days trying to figure out a puzzle that opens Jabba's safe. Meanwhile on Jabba's ship, Queen Ara watches as Jabba eats the daughters of various Republic leaders that Turrack and Iris bring him.

•Julia and Stella give up trying to solve the puzzle. Melion tries one last time and succeeds alone. She enters to the safe room to read the documents. This sets off an alert to Turrak. He sees Melion on camera and departs to the Palace.

•The three girls find out how to get to Jabba's ship. Julia says she's at the end of her deal. When Melion presses her further, she explains she was used to capture the three original princesses. Melion feels betrayed and Stella writes her off. Julia leaves them momentarily.

•Stella and Melion have an argument when Melion wishes to personally rescue the Queen instead of sending a company of soldiers. Melion storms off to be alone. Stella goes to berate Julia before she leaves. But they both see Melion kidnapped by Turrak from a distance. Prub is unknowingly taken too inside of Melion's bag. Stella convinces Julia to help her rescue Melion, given their shared hatred for Turrak.

•Melion is brought before Jabba in slave girl attire. She is seated by her mother and they both are forced to pleasure Jabba. Iris comes in to watch with Sith Slave Tamara. Turrak hands Prub over to the beast masters.

•Jabba begins to decide which one he wants to eat first, Ara or Melion. But just then, Julia Tindara enters the harem. Jabba is surprised to see his favorite Slave Girl willingly return to his side, and she begins to dance for the crowd. She distracts and delays them with her expert dancing display. Elsewhere, Stella has made her way to the ship's engine room control panel. She kills the power and lowers the shields obi-wan style.

•The republic begins to assault his ship and their trap has been sprung. Julia grabs Melion and Queen Ara and bolts. Jabba looks to see most of his allegiant cruisers being destroyed and others that begin to flee the battle. Jabba hits a button and retracts to the ship bay with Tamara at his side. Turrack goes after Julia and the girls.

•Stella and Iris meet in the hallway and do battle. Julia splits up with Melion and the Queen to delay Turrak. She tries desperately to fight him off but is no match. Stella's fight with Iris is interrupted by a large explosion and Iris gets away. Stella goes to find the girls. Turrack has Julia almost swallowed whole when Stella swoops in and hamstringing him. She says "that was for my master". Julia then stands up and says "this is for my mother" and blasts his head off with his own scattergun.

•Jabba sees the ship is now full of Alderaan's female soldiers and they have control of the hangar bay. But Jabba then releases every monster cell on the ship to create chaos. The disabled ship also begins to descend down to the planet it was orbiting. The three girls and the queen avoid being eaten as they make their way to the hangar bay. But many of the female soldiers who had secured the bay are gulped down by the monsters. One of which is the now fully grown and mutated Prub.

•Melion and Ara run to the hangar bay alone. A few republic soldiers try to escort them but are eaten by rathtars. The queen tries to contact the other republic ships at a com station. Melion is overtaken by a perverted courtier of Jabba. While he's humping Melion the Queen shoots him with a blaster.

•Before the queen can continue, she is engulfed whole by a bag drone that whisks her away down the halls. Melion runs after it as fast as she can. She follows it all the way to the hangar. There, Jabba is at his escape ship with Tamara at his side.

•Jabba has the bag drone open up to plop the Queen into Jabba's mouth. Tamara force lifts up Melion and brings her to Jabba's grasp. Stella and Julia arrive and see what's happening. Stella engages Tamara while Julia runs to confront Jabba with a blaster. He has the queen halfway down his throat while Melion struggles in his grasp. She hesitates due to their shared history and Jabba tries to convince Julia to just walk away. Julia refuses, and Jabba laughs as he sees Prub come up from behind Julia.

•Julia is electrically stunned from Prub's new power. Prub lifts her up and begins to suck her like a popsicle. Jabba remarks what a shame it is that she didn't listen to him, as his ship begins to power up. Prub finally swallows Julia whole. Stella beats Tamara with her Jedi Mind Trick, causing Tamara to hit the floor incapacitated. Stella turns to see how Julia has done, but is met with Prub's electric stun that knocks her out as well.

•Prub savors Stella the same way he savored Julia. He slurps her all the way down his throat and into his gut. He is licking his fingers when he spots Tamara passed out on the ground as well. He remembers her, and is overjoyed that he gets to eat the one that got away from him. And that this time, there is no pesky Jedi to save her.

•He lifts her up, and swallows her whole. He sits satisfied for a moment, but then sees a lightsaber begin to float upwards. It ignites in mid air. His eye grows big and he screams “Not again!”. The saber flies through the air and slices his head off. Tamara cuts herself and the girls out of the stomach. Tamara looks around and Sees Jabba’s ship just about to leave the hangar bay.

•Jabba taunts Melion as he swallows her mother whole. His escape craft’s engine explodes from Tamara’s red lightsaber being thrown into it. The ship smacks on the ground and Jabba drops Melion. She quickly grabs the controller for the Bag Drone and presses “retrieve last”. The drone then sends its tube into Jabba’s mouth and sucks out the Queen. Jabba is disoriented as Melion runs out of the downed ship with her mother inside the bag drone.

•Melion reaches Tamara and the girls and they all embrace. They trade quick words of disbelief and relief. Julia reminds them they are descending to the Planet and still need to get out of there. Stella asks if they should go kill Jabba. They determine it’s better to look for a ship since he will die in the crash anyway. They cut the queen out of the bag drone. Stella and Julia begin to look for a working ship in one of the connecting hangar garages. Just then, a Republic lander enters the Hangar bay. Tamara and Melion believe they are saved.

However it hovers over Jabba's crashed ship. The girls see Jabba levitate up and into the opening. They are confused at the sight. The Lander begins to turn around. As it does, Melion begins to levitate upwards.

- Tamara sees Iris Voo standing on the lander ramp, and Melion is rapidly pulled across the hangar bay. Jabba catches Melion with both hands, and waists no time in stuffing her into his mouth. Tamara tries to use her force powers grab her back, but can not control them outside of the mind wipe. She watches Melion's legs kick frantically as Jabba slurps her all the way down.

- She runs at them while the lander ramp closes. Jabba and Iris leave the hangar, but Julia and Stella pick up Tamara in their ship. They chase after Jabba and Iris. The ship they found has no weapons, but they follow them and try to contact any available republic fighters for assistance.

- The lander is heading towards open space, but they see a bright square open up out of nowhere. Jabba and Iris's lander enters it, and the square doorway closes back into what looks like empty space. Julia stops their own ship when she realises she's about to smash into a stealth cruiser. Tamara screams when she realizes that Melion will be truly digested by Jabba. Two glowing balls appear just as strangely as the door had. The ship's engines point directly at their craft as it jumps to hyper speed.

- The girl's ship is damaged, but they are rescued by the Republic. Jabba licks his fingers as he enjoys Melion gurgling inside his stomach. Iris explains the only reason she rescued him was to force him to hand over his beast master's and their serum.

Jabba agrees to the payment of his rescue when he realizes his uprising has been killed in the crib. He takes what remains of his court and goes back into hiding. Iris departs to continue her plans of creating a Sith army loyal only to her.

After the conflict, the Queen struggles with who to blame for Melion's death and Tamara struggles with what to do next. Stella brings her to the Jedi temple to begin training as a Jedi, but the council hesitates to accept her due to the queer circumstances surrounding her powers. Julia finds a new home at the Alderaan palace, and does her best to acclimate to a peaceful environment. Tamara's new burden is the conflict between an adopted Jedi way and her personal desire for revenge.
