## Afterword:

Chapter 3 of The Spread, which is kinda surprising in some ways haha, didn't really expected people to be too interested in the original projects we have, but I'm pretty happy to know that regardless haha.

Have some pretty fun ideas, especially with the next chapter where we might be able to showcase the infection in a fuller extent, have the other people in the school involved as well, but I do look forward to seeing how's the response for this chapter for now!

As always, thank you all for supporting the chapters we put out, I really do appreciate all of your support and am very grateful for it. To end the way I always do, do let me know if you have any feedback or suggestion! Would love to hear them!
