

READ ME

For now, the schedule consists of 2 short animation every week, depending on the complexity of the project, sometimes it is possible that even three animations will be done per week. But this format is likely to change in the future, because in the future I would like to focus on long animations, short films, and more complex scenes. Parallel to these projects, there will be an animation featuring League of Legend characters every month, and if the occasion arises, also of other famous games or fictional characters.

In other words, every month will be published between 8 and 9 short animations, but this number is not correctly definable at the moment.

Future Projects (Long Animation)

The long animations that I have in mind, and that I will surely do sooner or later, will always be divided into three parts. The short animations are nothing more than extracts of these long animations, or in any case their derivatives. At the moment the only long animations published are *Clarissa & Zanna (pt.1)*, and partially *Maly & Jenny (pt.1)*.

I leave below a series of tags that identify the characters and their series:

- **Clarissa & Zanna:** deepthroat, fill, piss, puke
- **Maly & Jenny:** anal, fill, futa, prolapse
- **Karla & Faly:** fill, vagina
- **Feera:** anal, prolapse, scat,
