Arrangement tips

- Master the use of your thumb on the downbeat, index finger on the &, the same fingerpicking pattern is used throughout the entire song where there is no melody. The 3rd measure is a good example of this.
- Take the time to learn the shapes, try them in other songs you play.
- Hitting the 10th fret on the & and going into the stretch C chord is tricky, take your time
- Play the verse as many times as you want, the song goes through it 5 times before the coda.
