

-Jade's snack-

The victim for the Goddess Jade appeared on her hand, unsure of what was going on, or what would happen to her

The tiny girl was confused by the actions taken by the Goddess, thinking she was safe, that a Goddess is supposed to care for their subjects...

The Goddess released a soft moan,
coating the tiny in a touch of saliva...
And yet, the morsel still thought she
was safe...

Slowly, Jade pulled the tiny, pathetic victim closer to her eager maw, only now causing the girl to realise her fate, trying her best to struggle, to resist it

Her prey was able to feel the warm
breath coming from Jade's mouth...
She started to scream, crying out for
help, but no one could hear her...
They were in Jade's world...

The screams grew in volume as the deities finger pushed her, deeper into the maw, her tongue moving her around, forcing her deeper and deeper...

Slowly, the victim began to abandon hope, realising that, in spite of her most desperate of struggles, she would always be just a snack to the Goddess. A Goddess who was relishing every moment of it...

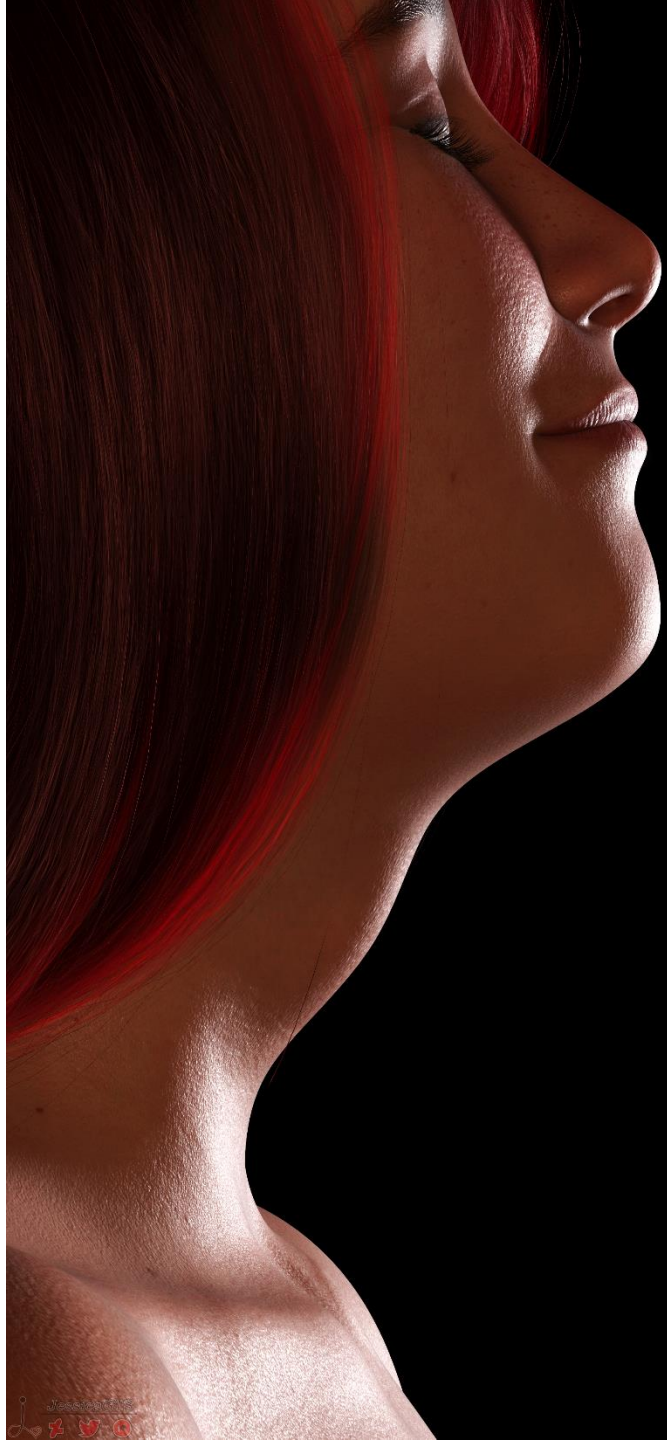

Jade closed her lips and slowly remove her finger from her silky lips, leaving the tasty tiny in a dark moist cave to enjoy the squirming and moving of the victim at her tastebuds. No chance to escape, a sealed fate with just one direction

Jade was enjoying the moment of tiny victim screaming inside of her mouth... helpess... screaming for help...

After some time Jade started
swallowing her victim...

After... it only remained...
