Original Lick

```
1 & 2 & 3 & 4 & |  
Em  
A|-----|  
E|--3-5-7-5-3-----|  
C|4-----4-----|  
G|-----|
```

The first instrument that we are going to add is a hammer on, hammering from the 3<sup>rd</sup> fret to the 5<sup>th</sup> fret, keeping your pointer finger on 3<sup>rd</sup> fret and striking the 5<sup>th</sup> fret with your ring finger.

```
1 & 2 & 3 & 4 & |  
Em  
A|-----|  
E|--3h5-7-5-3-----|  
C|4-----4-----|  
G|-----|
```

Next comes the bend, the bend we are going to use is known as a prebend, which means we will bend the string before we pluck it, the idea is that we bend from the A note on the 5<sup>th</sup> fret up to the B note on the 7<sup>th</sup> fret, and than after the note is played it is slowly lowered to the 5<sup>th</sup> fret again.

```
1 & 2 & 3 & 4 & |  
Em  
A|-----|  
E|--3h5-b7r5-3-----|  
C|4-----4-----|  
G|-----|
```

Following this bend we are going to do a pull off, the pull off will happen from the 5<sup>th</sup> fret to the 3<sup>rd</sup> fret, but the whole time we have kept our pointer finger on the 3<sup>rd</sup> fret.

```
1 & 2 & 3 & 4 & |  
Em
```

```

A|-----|
E|--3h5-b7r5p3-----|
C|4-----4---|
G|-----|

```

The only thing know that we need for the icing on the cake is to add the slide and vibrato, and we are going to do both at the same time, vibrato is great for the notes that you plane on letting breath, or the notes you are resolving too.

```

  1 & 2 & 3 & 4 &   |
  Em
A|-----|
E|--3h5-b7r5p3-----|
C|4-----4-2/4~~~|
G|-----|

```

It is important to practice each one of these individually, and this lick is a great way to get started. Make sure to put each one of these into your own playing and you will be rocking in no time!
