## **Keyword Features**

Main Armor Keyword	Feature	etc
sla_armorpretty	Generally it indicates just a normal pretty armor. Barely skin-exposed.	_
Eroticarmor	Not much skimpy but somewhat exposed armor. Maybe belly and thighs can be exposed and emphasis on breasts for this category. But maybe normal bikinis might be ok but for thongs.	_
sla_armorspendex	Spendex, Latex What else do you need for explanation?	_
sla_armorhalfnake dbikini	String bikinis!! You barely cover your privates There might be a chance to peek her pink tits.	_
sla_armorhalfnake d	d Cover? No That`s for pussies. A completely whorish outfit could fit this category.	

If you want some diversities, put these keywords to your cuirass armor.

And then find the armor and its cuirass part you want to change. You can see the different diverse keywords already registered. But for not I just simply added one keyword `EroticArmor` Close Tes5edit with saving it. Done!!

P.S – of course it's not necessary and if you find this hard to understand. just simply use Naked Armor feature on Sexlab Aroused MCM. Of course you have to do it for all of your each armor one by one.
